Introduction

Welcome to ITECS, a premier managed service provider specializing in IT, cybersecurity, and cloud solutions that empower businesses in today's digital landscape. With a team of experienced IT professionals and strategic advisors, we deliver customized IT services that ensure operational efficiency, enhance security, and drive innovation. Our comprehensive solutions include managed IT services, cybersecurity frameworks, cloud hosting, consulting, and more. At ITECS, we are dedicated to providing exceptional support and helping your business achieve its full potential.

Brian Desmot
ITECS CIO, CISO

Mission and Vision

➞ Mission

Our mission is to transcend the role of a traditional IT vendor, forging enduring partnerships with our clients to deliver customized and adaptive IT solutions. Our commitment to exceptional service, agility, and flexibility ensures that we consistently provide timely, relevant, and innovative support for our client's evolving needs.

➞ Vision

Our vision is to set the industry benchmark for exceptional service, consistently delivering unparalleled IT solutions that surpass those of our competitors. We are dedicated to exceeding the expectations of our associates, clients, and investors by maintaining a steadfast commitment to excellence and consistently delivering high-quality outcomes.

Our Services

→ Managed IT

Enhance your operations with our comprehensive Managed IT and Cloud Hosting services. From monitoring and support to secure cloud environments, we provide tailored solutions to ensure efficiency and scalability for your business.

→ Cybersecurity

Protect your business with AI-powered cybersecurity solutions that stay ahead of evolving threats. Our next-generation security framework combines advanced machine learning, real-time threat intelligence, and proactive defense strategies to safeguard your critical assets while ensuring compliance.

→ Artificial Intelligence

Transform your business with strategic AI implementation and consulting services. From AI readiness assessments to custom solution development, we guide organizations through their AI journey, ensuring practical applications that drive measurable ROI and competitive advantage.

→ Managed IT Services

→ Managed Cloud Hosting

→ AI Consulting & Development

→ Managed Security Services

→ AI & Traditional SEO Services

Term Success

Case Studies

➔ Challenge

[Pegasus Foods, Inc.](#) needed to relocate its operations from Los Angeles to its new plant in Rockwall, TX.

➔ Solution

- Provided IT consulting and an execution plan to move its IT infrastructure and take over managed IT services from its existing IT vendor.
- Duplicated Pegasus Foods' servers in ITECS's Managed Private Cloud.
- Ensured uninterrupted access to mission-critical databases and applications.
- Provided a disaster recovery solution during the facility move.
- Enabled seamless operations while servers were in transit to Texas.
- Delivered scalable, secure hosting for long-term operational efficiency.

➔ Results

- Achieved 100% uptime throughout the transition process.
- Eliminated risks of data loss or downtime during server transport.
- Maintained continuous access to critical business applications.
- Enhanced disaster recovery capabilities for added security.
- Pegasus Foods retained ITECS hosting for its superior efficiency, with most applications and databases still hosted today.
- The organization continues to rely on ITECS for its managed IT services..

Client Testimonials

JD Hilzendager
COO at ViaOne
Services, Inc.

We had a tough time keeping and justifying a network admin for our company and decided it was best to find an outsourced and more flexible option. ITECS met me f2f and I was impressed enough we put them to work the next day. 2 years in and zero regrets.

Doug Vanderbilt
Director of Development
at Crozier and
Henderson Productions,
Inc.

ITECS has provided us with the best IT support we could hope for. Outsourcing our IT to ITECS was the best decision we have ever made. The team is top-notch, deeply knowledgeable about technology, understands our business needs, and is always there to solve our IT challenges.

Bill Squiric
Owner at Ad Pages,
Inc.

We got hit with ransomware and ITECS recovered our data the same day, thank you, Jeff & Brian. We value your managed IT support services and look forward to continuing our partnership.

Brendan Orient
Managing Director
Acquisitions at
Phoenix Capital, Inc.

Been a client of Itecs for over 3 years now. They have a quick response time and are always willing tailor their service to our specific needs – Would highly recommend.

The ITECS Difference

	ITECS	Others
A true IT Partner	ITECS aims to be your strategic IT partner. With transparency, flexibility, and dedicated teams, you will experience a partnership rather than a client-vendor relationship.	Most vendors offer a helpdesk support system where you may work with different representatives each time, often waiting days or weeks for a resolution.
Diverse skillsets	ITECS was founded in 2002 and continues to support a diverse range of brands and technologies for its customers. ITECS is capable of managing any brand and technology.	Some MSPs recommend you buy new hardware and software that better suits the MSP's skill set, even when the existing technology has a remaining lifespan for a return on your company's investment.
A full suite of services	ITECS is a managed service provider (MSP), specializing in cybersecurity, AI, and managed cloud hosting solutions. Our services are designed to complement one another and can be bundled together for maximum return on investment (ROI).	Most vendors do not offer fractional CIO or CISO services, nor do they have cloud architects on staff. Instead, they tend to outsource the additional IT services you need or take on unnecessary risks by attempting to provide these services in-house without being fully prepared.
Support ecosystem	ITECS employs courteous and professional experts across the United States who can help all of your company's remote locations.	Only a tiny percentage of MSPs have grown out of the 1–3 man offices. Most of which can only support businesses with offices in their local region.

Our Advantage

SOPs for service consistency

We establish precise Standard Operating Procedures (SOPs) to ensure consistency and efficiency in our service delivery.

Security matters

We take security seriously and implement robust measures to safeguard your data and systems.

Total or co-op management

We act as your IT department, offering services from vCIO to break-fix support, either fully or in collaboration with your current teams.

Dedicated IT team

A team of dedicated professionals is assigned to provide you with IT services.

Resourcing & Planning

Define solution architecture and integration, Develop a roadmap and assess timeline and resources.

Documentation & auditing

We maintain scrupulous documentation to keep track of all our processes and technical data.

Managed hosting

Go serverless with ITECS-managed hosting solutions that include patch management, backups, and security.

Artificial Intelligence

Leverage ITECS' AI expertise to improve processes and reduce overhead.

Client Onboarding

Navigating IT With Clarity

Building trust and aligning actions with expectations requires transparency between a Managed Service Provider (MSP) and its clients. At ITECS, we prioritize clear communication by integrating our clients into our IT management systems. We provide direct access to ticketing and documentation systems that allow them to track workflows and monitor issue resolution processes. Our advanced antivirus system along with the network monitoring system, offers in-depth insights into security posture and network performance. This fosters a proactive approach to IT management, enabling ITECS to evolve into a true strategic IT partner seamlessly integrated with our clients' business operations.

ITECS does not charge an onboarding fee for clients enrolling in the MSP Pro and MSP Elite programs. We also allocate 4 free hours for special projects in MSP Pro and 15 free hours for those who choose our top tier MSP Elite program.

AI Consulting Services

Empowering Dallas Businesses with AI Innovation

ITECS AI Consulting Services bridge the gap between cutting-edge artificial intelligence capabilities and practical business applications. Our expert consultants help organizations navigate the AI landscape, identifying opportunities for automation, enhanced decision-making, and competitive differentiation.

AI Readiness Assessment

- Current state technology evaluation
- Data infrastructure analysis
- Skills gap identification
- ROI opportunity mapping
- Compliance and ethics review

Strategic AI Roadmap

- Phased implementation planning
- Technology stack recommendations
- Budget and resource allocation
- Change management strategy
- Success metrics definition

Our AI Consulting Approach

1. Discovery & Assessment

Comprehensive evaluation of your current capabilities and AI readiness

2. Strategy Development

Custom AI roadmap aligned with your business objectives

3. Pilot & Proof of Concept

Low-risk validation of AI solutions before full deployment

4. Scale & Optimize

Enterprise-wide implementation with continuous improvement

Why Choose ITECS for AI Consulting?

Deep Technical Expertise

Our team combines AI/ML expertise with decades of IT infrastructure experience, ensuring solutions that work in real-world environments.

Industry-Specific Knowledge

Specialized experience in healthcare, finance, manufacturing, and professional services sectors across the Dallas market.

End-to-End Support

From initial assessment through implementation and ongoing optimization, we're your complete AI partner.

Risk-Managed Approach

Phased implementation strategies that minimize risk while maximizing learning and ROI at each stage.

Free 4 hours allocated per Special Project		△	
Free 15 hours allocated per Special Project			△

MSP ELITE is ITECS' top-tier service, designed to provide cutting-edge IT solutions that keep your business secure, efficient, and competitive. This package includes Sophos MDR (expert-led threat monitoring), patch management, advanced monitoring, next-generation email security, and bi-annual cybersecurity assessments. With a Dedicated Technical Account Manager and flexible contract terms, MSP ELITE is perfect for businesses looking for premier IT management and security.

MSP PRO offers essential IT services, including Remote Monitoring and Management and Sophos XDR. This plan allows ITECS to operate as a proactive IT department, providing unlimited support and consulting (excluding special projects) to ensure your operations run smoothly. Additionally, MSP PRO offers the flexibility to enhance your service with a la carte options, ensuring your IT strategy evolves with your business needs.

MSP SELECT provides foundational IT tools, including RMM, Sophos XDR, patch management, and preventative maintenance. While it does not offer support or consulting services, it can be combined with pre-purchased time block retainers for added flexibility.

MSP Service Options

Service Hours

MSP Daylight – This plan is ideal for businesses that operate during standard working hours, offering expert IT support from 8 AM to 5 PM, Monday to Friday. This ensures that your daily operations run smoothly and without interruptions.

MSP Extended – MSP Extended is designed for organizations that need additional support beyond the standard workday. It offers extended support hours, providing flexibility and peace of mind for early mornings or late evenings. Support is available every day of the week from 7 AM to 10 PM. **\$2,000/month**

MSP 24/7 – Our most comprehensive coverage, MSP 24/7, is the ultimate IT support solution that offers assistance around the clock. It is ideal for operations that never sleep, ensuring that help is always available, no matter the hour.

Alternative On-demand Options

Retainer Block – A pre-acquired time block with no expiration date that can be applied to any billable IT services rendered by ITECS. These services encompass IT support, consulting, and project management. **\$3,000/month**

Hourly – This pay-as-you-go model allows you to request IT support, consulting, and project management services whenever needed without committing to a fixed plan.

MSP Cost Model

MSP ELITE

Servers*, Desktops, Laptops

Quantity	MSP Daylight price per unit per month	MSP Extended price per unit per month	MSP 24/7 price per unit per month
1-100	\$150.00	\$175.00	\$190.00
101-200	\$142.50	\$161.50	\$180.50
201+ Negotiable	Negotiable	Negotiable	Negotiable

*50% discount on virtual machines, Managed Network Devices: \$75.00 per unit /mo

MSP PRO

Servers*, Desktops, Laptops

Quantity	MSP Daylight price per unit per month	MSP Extended price per unit per month	MSP 24/7 price per unit per month
1-100	\$100.00	\$125.00	\$145.00
101-200	\$95.00	\$118.75	\$128.25
201+ Negotiable	Negotiable	Negotiable	Negotiable

*50% discount on virtual machines, Managed Network Devices: \$40.00 per unit /mo

MSP SELECT

Servers, Desktops, Laptops

Quantity	price per unit per month
1-100	\$45.00
101-200	\$42.75
201+	Negotiable

Billing is flexible, and each month you are charged only for the systems enrolled in your selected program.

MSP SELECT minimum fee of \$315.00/mo

MSP PRO minimum fee of \$1,500.00/mo

MSP ELITE minimum fee of \$5,000.00/mo

MSP 24/7 (coverage option) minimum fee of \$5,000.00/mo

Retainer & Hourly Model

The Value of Our Retainer Agreement

Our retainer agreement offers unmatched flexibility with pre-paid blocks of hours that never expire. Clients enrolled in MSP SELECT receive a discounted 15-hour block, sold exclusively in 15-hour increments, making it an even more cost-effective option.

The retainer is ideal for businesses preferring a less proactive IT approach, providing access to hours for critical projects, on-demand IT support, or expert consulting. This allows businesses to maintain control and flexibility over their IT spending without committing to a full-service package.

Deduction Model Explanation

Our deduction model reflects the complexity of services. Level 1 includes end-user assistance and general cloud platform administration (e.g., Office 365). Level 2 involves tasks handled by network or system administrators, like firewall management and Azure policy configurations. Level 3 is reserved for consulting, offering strategic IT guidance, AI, and expertise.

Retainer Deduction Model

- LVL 1 – 1 deduction
- LVL 2 – 1.2x deduction
- LVL 3 – 1.5x deduction
- After hours – 1.5x deduction
- Emergency – 1.5x deduction
- After hours + emergency – 2x deduction

Hourly IT Support Services: Engage with us on a flexible, on-demand basis for your IT support needs. Your payment details are required and securely stored on file with ITECS, enabling a smooth, pay-as-you-go experience.

After-Hours Service: Should you require support outside of regular business hours, a rate of 1.5 times the standard deduction will be applied.

Emergency Assistance: In urgent situations, services will be billed at 1.5 times the standard deduction to address your immediate needs.

After-Hours Emergency Support: For critical issues that arise after business hours, we offer expedited support at a rate of 2 times the standard deduction.

RETAINER with MSP SELECT

Quantity	Total Cost
15 Hours	\$2,625

RETAINER without MSP SELECT

Quantity	Total Cost
15 Hours	\$2,950

Hourly Cost Model

- LVL 3 – \$295.00 per hour
- LVL 2 – \$260.00 per hour
- LVL 1 – \$205.00 per hour
